DIV. OF OIL, GAS & MINING

Subject: Deficient Notice of Intention to Commence Small Mining Operations, G. R. Conn, Castle Peak Project, S0130011, Task 1787, Duchesne County, Utah

Dear Mr. Conn:

The Division has reviewed the response to its previous deficiency letter, and although this response clarifies many of the issues raised, there are still some questions that need to be addressed.

1. An individual does not need to be registered to do business in Utah but a partnership does. You could register your partnership, or the Notice of Intention (NOI) could be submitted under the name of one of the individuals.

*lease ml 50772 is under my name.*

2. Please submit the permit fee of \$150.00. *included*

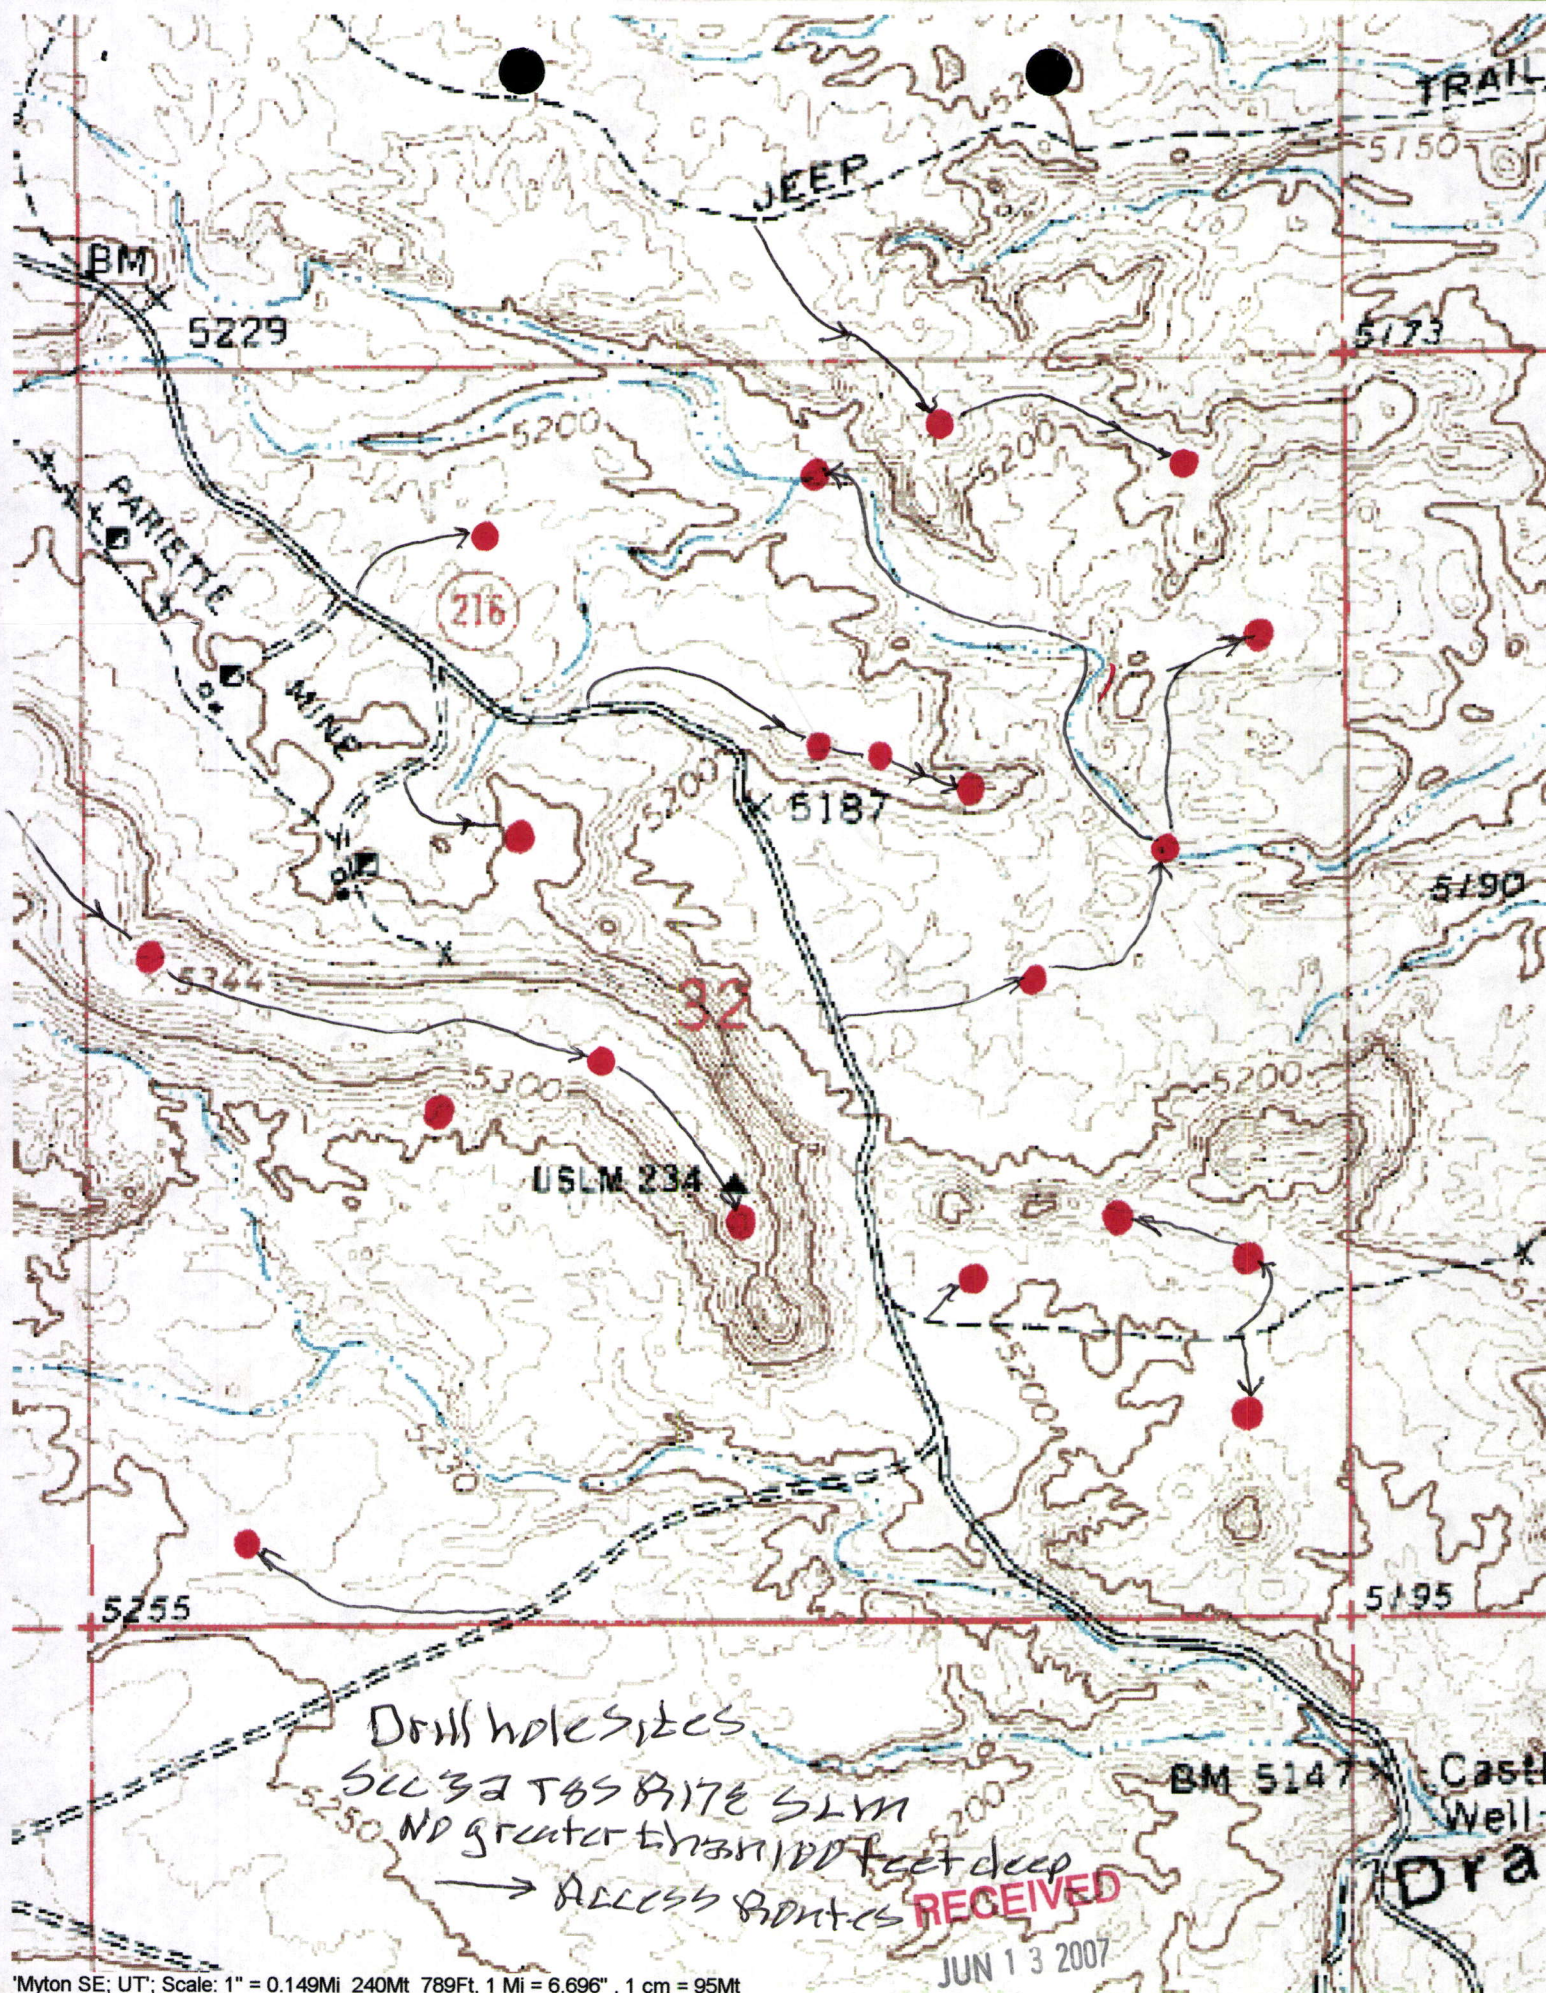

3. Please show on the map the approximate routes that will be used for cross country travel. If the area contains roads that are not shown on the map, please mark these as well. The Division will provide a copy of this map to the Division of State History to determine whether it is likely you will affect known cultural resources in the area.

*included. all holes may not be drilled  
this year.*

According to the School and Institutional Trust Lands Administration, your lease only includes Section 32 of Township 8 South, Range 17 East, SLBM. The other two sections included in the NOI, Section 36 or Township 8 South, Range 16 East, and Section 2 of Township 9 South, Range 16 East, are not included in the lease. Please provide the right of entry information for these sections in the NOI.

The Division requests that you respond by submitting replacement pages to the NOI. A copy of the NOI, including maps, is included with this letter. For example, please include the lease number in the appropriate place on page 3.
